Teledyne Solutions, Incorporated (TSI) provides internal and external public affairs support to government organizations and military officials. TSI assists in the development of themes and concepts that articulate mission-related system/product acquisition strategies and command priorities. These concepts are developed and implemented through event presentations, conference displays and exhibits, informational pamphlets and other publication materials.

Public Affairs Publications/Materials

TSI provides full-service conference exhibit support. From exhibit conceptual design and development, operational maintenance, shipping, storage, show-site installation & dismantling to representing customer programs and systems during conferences, we are a one-stop service provider.

TSI develops and updates products displayed and distributed at conferences/events. This includes product design, formatting, writing, editing, photography, graphic/illustrations, and printing of materials. We integrate multimedia/video, web page development, product fact sheets, and display graphics for the exhibits and update materials to remain current with customer mission and product/system information.

TSI maintains a database of all graphical elements to enable quick updates and changes to event materials.

50'x70' Display Configuration

Over the past 10 years, TSI has successfully organized and attended over 80 different tradeshow conferences and events in support of our customers. Our public affairs division currently manages over 10 diverse tradeshow exhibit configurations, including 50'x70', 30'x30', 20'x20', 10'x20' and 10'x10' designs.

TSI Manages and Coordinates All Phases of Conference Participation.
